MY SKILLS

MY SPECIAL EXPERTISE

EDUCATION

2016 - 2018

MASTER DEGREE OF INFORMATION SYSTEMS AND TECHNOLOGIES

The Focus C# Master's Program is an intensive, hands-on, project oriented program where participants add knowledge of and valuable experience putting the C# MVC skill set to use in a simulated work environment. Used C#, LINQ and ADO.NET to define and implement secure middle-tier components using connected and disconnected environment strategies. Components consumed by Web applications and Windows applications utilizing SQL Server and stored procedures to perform logical business transactions.

2013 - 2015
